Prefinished Wooden Veneer Panels (Painted Veneered MDF)

7 x 1220 x 3050mm
19 x 1220 x 3050mm

SHINNOKI®

PREFINISHED WOOD PANELS

The finishing touch

Optimized, state of the art techniques deliver a soft-touch, and deeper brushed wood experience, making Shinnoki the softest wood on the market. Our new, super mat finish amplifies the beauty and warmth of solid wood, while deep brushing enhances the authentic texture of each grain.

Scratch resistant

Our panels are as sturdy as they are stylish. Our best-in-class finish is the result of a six-layer varnishing process that provides our ultimate protection against micro scratches without compromising on touch, color, and look.

Protection against spills

Extensive research and development has led to enhanced protection against liquids, making Shinnoki panels a go-to option for horizontal use*. Our advanced finishing technology penetrates the pores of every Shinnoki panel, ensuring protection against drips and spills
